CHARGING POLICY FOR 2020/2021

Introduction

Chapter 11 Articles 189 of the Constitution of the Republic of Uganda and Section 30 and 31 of the Local Government Act Cap 243 lays down a long list of the mandatory services which a district Council is mandated to provide to its residents as exemplified in the second schedule part 2 of the Act under decentralization policy.

In accordance with Section 80, power to levy taxes, of the Local Government Act CAP 243, as amended and as specified in the fifth schedule of this Act, the Local Government Revenue Regulations, which include; Royalties, User fees, Trading Licenses and Permits, fees and fines, Market and Gate charges, Rent and Rates and property tax, among others.

Furthermore, section 8, Cooperation among Districts, of the Local Government Act CAP 243, as amended, provides that two or more District Councils may, and in accordance with Article 178 of the Constitution of the Republic of Uganda, 1995, as amended, Cooperate in areas of; Culture and Development, Form, Concur and Support Councils in any matter in which they have a common interest, and in this case, Local Revenue Enhancement working with neighboring DLGs and municipalities including benchmarking on their successful practices.

This charging policy has been designed to facilitate the 2020/2021 Budget execution. Secondly, most of the rates to be used were approved and published by the Ministry of Trade by through Statutory Instrument Country Wide.

Furthermore, the charges related to Public Land transactions are those as stipulated in the Land Act, but Council will charge offer fees from applicants basing on assessment of the value of the Public Land to be offered and this item is expected to generate significant amount of Local revenue.

Any anticipated increase in Local revenue will be as a result of increased efficiency in Collection through setting targets for Lower Local Governments, setting up of Revenue Check Points and putting in place controls aimed at closing most of the loopholes in the Revenue Collection System.

The Key Highlighted Strategies

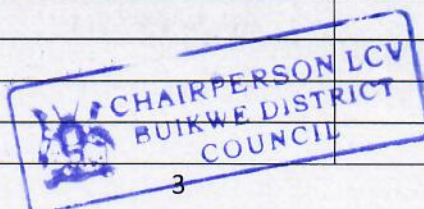

- a) That all Boats should be registered and recorded in the register book at each landing site in their respective LLG,
- b) That to introduce and collect **Landing site fees** amounting to **Ugx. 100,000** payables by each fishing boat per annum at the LLG.
- d) That to abolish Boats parking fees and daily market fees on Boats.
That each **Baria**, should pay **Ugx. 25,000** per annum directly to the District Lower Local Government.
- e) Collection of Royalties from Sand deposits, Some Quarry and Public Swamps activities
- f) That Buikwe District Local Governments enacts **ordinances** for large scale fishing firms to regulate and guide the enforcement of their operations.
- j) That **mukene** stores to be charged an annual trading license based on assessment conducted by the respective councils.
- k) That operations of cage fish farming to be charged **environmental and social impact assessment** fees per annum as follows:
- i. The first two cages be exempted from tax to promote aquaculture to enhance household livelihood
 - ii. Cages of 2x2 to be charged ugx 20,000/= per annum
 - iii. Cages of 5x5 to be charged ugx 50,000/= per annum
- l) Formulation of a comprehensive District charging policy
- m) Continue levying **Land offer Fees** from all applicants, based on assessment by the Land Board. The amount to charge will depend on Size of Land applied for, its location and market Value. **Two assessment Forms** will be issued to the applicant, the first will be for charges in line with the Land ACT, and the **second assessment form** will be for **Land offer Fees** in line with the **District charging policy** payable on the District General Fund Collection Bank Account.

The above strategies are thus, intended to streamline the levying as well as enhancing local revenue for the smooth running and execution of the operations of the entire District Local Government.
