

BUIKWE DISTRICT LOCAL GOVERNMENT

PROFILE

*Presented to His Excellency the President of the
Republic of
Uganda on 9th June 2016 (National Heroes' day
Celebrations Held in SSI – Bukunja Sub County)*

Map of Buikwe District

Background

Historical Background

Buikwe District is one of the 28 Districts of Uganda that were created under the Local Government Act 1 of 1997. By the Act of Parliament, the District was initially one of the Counties of Mukono District but later declared an independent District in July 2009. The current Buikwe District consists of One County which is divided into three constituencies namely Buikwe North, Buikwe South and Buikwe West.

Location and Size

Buikwe District lies in the Central region of Uganda, sharing borders with the District of Jinja in the East, Kayunga along river Sezibwa in the North, Mukono in the West, and Buvuma in Lake Victoria. The District Headquarters is in Buikwe Town, situated along Kampala - Jinja road (11kms off Lugazi). Buikwe Town serves as an Administrative and commercial Centre. Other urban centers include Lugazi, Njeru and Nkokonjeru Town Councils. Buikwe District has a total area of about 1209 Square Kilometers.

Topography

The northern part of the District is flat but the southern region consists of sloping land with great many undulations; 75% of the land is less than 60o in slope. Most of Buikwe District lies on a high plateau (1000-1300) above sea level with some areas along Sezibwa River below 760m above sea level, Southern Buikwe is a raised plateau (1220-2440m) drained by River Sezibwa and River Musamya. There are two main categories of soils namely; Ferralitic soils and Ferrisols.

Relief and Climate

The mean annual rainfall is 11,000mm distributed over 106 rain days, with peaks in March – May and September – November. Temperatures range between 16oC and 28oc throughout the year. Both relief and climate provide good potentials for investment in production of cash and food crops, horticulture and floriculture on a commercial basis. Existing

commercial farms in the District also provide a good background for experience sharing for those investors who want to venture in such areas.

Demographic and Socio-economic Indicators

Community Based Services

community based services

The District has several community development groups. These include youth groups, women groups, civil society organizations, FAL study groups and cultural groups.

Number of Community Development Groups:	450
Number of women Groups:	82
Men Groups:	51
Mixed (Men, women, PWDs) groups:	327
Community Development Centers:	02
Number of NGOs:	68
No of NGOs support programs for disadvantaged groups.	68
Number of CBOs	1135
Youth Groups:	405
PWD groups:	79
Cultural groups	06

SACCOs

The department of trade and industry / commercial service is charged among other roles; to supervise and monitor Sacco, Industry, Tourism and hospitality activities in the District in order to ensure streamlined and co-ordinated delivery of services to the communities. Currently, there are 26 SACCOs spread in all the lower local governments in the District, 18 of which are active and operational, 8 are operating with a lot of difficulties with funding

Youth livelihood programme

The total fund received in the financial year 2014/2015 Shs.159, 543,000/= and the total number of beneficiaries of the programme 345

Production Sector

The production sector is comprised of five sectors namely: Agriculture, Veterinary Services, Fisheries, Entomology as well as Trade and Industry. The main objective is to increase production and productivity of farm enterprises to attain at least 20 million Uganda shillings by every household annually. To achieve this, the department with support from Government carries out the following functions:

- Distribution of improved technologies/ inputs (NAADS & OWC)
- Train and sensitize farmers on proven practices and technologies
- On – farm demonstrations to show case the potential of the technologies
- Pests and diseases surveillance and management

The department also ensures that appropriate institutional linkages are maintained with all relevant sector agencies; comprising mostly crop, live-stock, fisheries, forestry and industrial research, marketing organizations, financial institutions including SACCOS, NGOs and CBOs engaged in agricultural activities.
